SUPPLEMENT TO REPORT NO.

- 1. During the last meeting of the Fartito Socialista-Sezione Italiana dell' Internazionale Socialista (FS-SIIS; Socialist Party Italian Section of the Socialist International) held prior to 7 July 1951, the former leaders of the Partito Socialista Lavoratori Italiani (FSLI; Italian Socialist Workers Party) proposed the expulsion from the FS-SIIS of Deputy Giovanni Giavi, of the former Fartito Socialista Unitario (FSU; Unitary Socialist Party). This proposal was based on the fact that Giavi stated that the PS-SIIS and the Partito Socialista Italiano (FSI; Italian Socialist Party) should unite in the nation and in Parliament in order to create a great Socialist force.
- 2. Representatives of the former PSU, however, maintained that expelling Giavi would be dangerous, since Giavi might go over with his own followers to the ranks of the Partito Communista Italiano (PCI; Italian Communist Party), and thus would initiate the disintegration of Democratic Socialism. It was therefore decided that Giavi be only "severely" reprimanded.
